

PhD Position on biological invasions in marine environments, University of Pisa (Italy)

The Department of Biology of the University of Pisa is going to advertise shortly the offer of PhD scholarships for enrollment in fall 2015. This is a fully funded 3-year PhD studentship starting from November 2015. The candidate will be enrolled in the Doctoral School of the Department of Biology of the University of Pisa and will carry out research both in the Mediterranean and along the coast of NSW (Australia). The candidate is a highly motivated person willing to work on an ambitious, crossdisciplinary research project involving experimental field ecology and ecosystem restoration, ready to travel and able to work as a member of a team. A knowledge of marine seaweed ecology and, in particular of biological invasion issues, will be advantageous, but it is not mandatory.
